

Rakegate Primary School

CCTV Policy

Introduction

Rakegate Primary School uses closed circuit television (CCTV) images to reduce crime and monitor the school buildings in order to provide a safe and secure environment for pupils, staff and visitors, and to prevent the loss or damage to school property.

- The system comprises a number of fixed cameras.
- The system does not have sound recording capability.

The CCTV system is owned and operated by the school, the deployment of which is determined by the school's leadership team. The introduction of, or changes to, CCTV monitoring will be subject to consultation with staff and the school community. All authorised operators and employees with access to images are aware of the procedures that need to be followed when accessing the recorded images and sound.. All employees are aware of the restrictions in relation to access to, and disclosure of, recorded images and sound.

Statement of Intent

The school complies with Information Commissioner's Office (ICO) CCTV Code of Practice to ensure it is used responsibly and safeguards both trust and confidence in its continued use. CCTV warning signs are clearly and prominently displayed. In areas where CCTV is used, the school will ensure that there are prominent signs placed at both the entrance of the CCTV zone and within the controlled area. The planning and design has endeavoured to ensure that the Scheme will give maximum effectiveness and efficiency but it is not possible to guarantee that the system will cover or detect every single incident taking place in the areas of coverage.

Siting the Cameras

Cameras are sited so they only capture images relevant to the purposes for which they are installed (described above) and care will be taken to ensure that reasonable privacy expectations are not violated. The School will ensure that the location of equipment is carefully considered to ensure that images captured comply with the Data Protection Act/GDPR Regulations. We have made every effort to position cameras so that their coverage is restricted to the school premises, which may include outdoor areas. CCTV is only used to monitor the external security of the site and the main reception area as people enter the building. Members of staff should have access to details of where CCTV cameras are situated.

Storage and Retention of CCTV images

Recorded data will not be retained for longer than is necessary. While retained, the integrity of the recordings will be maintained to ensure their evidential value and to protect the rights of the people whose images have been recorded.

Access to CCTV images

Access to recorded images will be restricted to those staff authorised to view them, and will not be made more widely available.

Subject Access Requests (SAR)

Individuals have the right to request access to CCTV footage relating to themselves under the Data Protection Act/GDPR Regulations. All requests should be made in writing to the Headteacher. Individuals submitting requests for access will be asked to provide sufficient

information to enable the footage relating to them to be identified. For example, date, time and location. The school will respond to requests within 30 calendar days of receiving the written request and fee. (See Appendix 1)

The school reserves the right to refuse access to CCTV footage where this would prejudice the legal rights of other individuals or jeopardise an on-going investigation.

Access to and Disclosure of Images to Third Parties

There will be no disclosure of recorded data to third parties other than to authorised personnel such as the Police and service providers to the school where these would reasonably need access to the data (e.g. investigators). Requests should be made in writing to the Headteacher.

The data may be used within the school's discipline and grievance procedures as required, and will be subject to the usual confidentiality requirements of those procedures.

Complaints

Complaints and enquiries about the operation of CCTV within the school should be directed to the Headteacher in the first instance.
